

Allahabad.  
April 29, 1949.

Dear Mr. Krishnan,

Being the science students of the local University, and fascinated by your contributions in the sphere of Physics, we really feel proud ~~that~~ to see that we have got some great men in our country.

We have, de-facto, a hobby of collecting the autographs of all great personages of the world and so we shall be very highly obliged to you if you kindly accept the trouble of signing on the adjoining pages of our autograph book and of despatching them in the accompanying envelope.

Wishing you a bright future.

Yours Sincerely  
P.S. Bhatnagar  
M.S. Sinha.

P.S.

We hope that we won't be disappointed.
