14. February 86

Dear Dr. Joshi,

As a German member of the IUSSI I have been asked to organize a workshop on "kin recognition in social insects" for the IUSSI congress in Munich (18.-22. August 86).

The workshop will be held as an afternoon session (from 2 to 5 pm) and will consist of two parts. In the first part talks of 10-15 min. length will be presented. In the second part a round-table discussion will take place in which additional short statements of about 5 min. length can be made.

Dr. A. Mintzer will chair the first part and Dr. W. Getz will chair the second part of the workshop.

You are invited to participate in this workshop. We hope that you will be able to participate and that it will become a very interesting and productive session.

Please let me know in which part of the workshop you would like to make a contribution. If you plan to give a talk please let me know the title. I would also like to have your suggestions for topics and questions that you would like to see discussed in the round-table discussion.

Please do send the abstract of your talk to the organizing committee in Munich before March 31st (deadline!).

I will let you know the final schedule of the workshop as soon as I can.

Sincerely yours

Dorothea Brückner
