31st, December, 1953

Dear Dr. Krishnan,

Many thanks for your kind letter of Dec.22, '53. Perhaps you are aware that the Nuffield Foundation, London granted me a fellowship for one year to study the recent developments on the coal burning gas turbine in England. This is a subject in which I tried to make a beginning in Delhi in 1947, when I joined the Fuel Research Institute, Dhanbad. I believe I have now an opportunity to go deeper into the matter and I am trying to use the fellowship in the best possible way to acquire information, knowledge and experience on the subject.

However, I should say that there are a few matters causing me worry. They affect my ~~xxxx~~ wellbeing so deeply that I wish to approach you for help as and when I need. I hope you will be generous enough to help me out of my difficulties.

With kind regards,

Yours sincerely,

S. Guruswamy
