V. V. Mohalla P.O.
Mysore, India

Dear Dr. Subrahmanyam:

I feel privileged and grateful to receive your kind and detailed letter of May 12. I am also extremely pleased to have the biography that you have kindly enclosed. Upon reading it, I felt that I would be proud and satisfied if, upon my retirement, I could list one-half or even one-third of your accomplishments.

I have raised the question with General Foods' management whether or not we could in some way utilize your talents and most valuable experience. I am also seeking contact with the Nutrition Foundation. I do anticipate that it will take a while until our executives have had an opportunity to weigh possibilities and reach a decision.

This letter, therefore, is only an acknowledgment of yours, and I shall, of course, write to you again as soon as I have been advised by my management.

Yours very truly,

S. W. Bogyo
Product Development Coordinator
