Bombay 400 075,

March 9, 1981.

Dr. Prof. Preston,

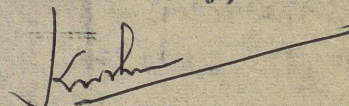

At the outset may I request you to excuse me for taking the liberty of addressing this letter to you. I am writing this under instructions from Prof. K. Sankaranarayanan (University of Leiden).

I am a student of Zoology and have taken my Ph. D. degree of the Bombay University in December 1980. The subject of my dissertation was "Fish as an in vivo cytogenetic model in the detection of potential mutagens". I am anxious to pursue my work on mutation studies under you on a Postdoctoral fellowship. I shall be highly obliged if you will kindly consider my request. I am sending herewith my biodata for your information.

I hope to hear from you at your convenience.

Thanking you and with best regards,

Yours sincerely,

(KRISHNAJA, A.P.)
