Dear Dr. Krishnan,

This is to request you for an article on some aspect of scientific research in which you are interested. This journal is exclusively intended for circulation abroad and the experiments made in India are, therefore, likely to be of great interest to our readers outside India.

Ordinarily articles of 1,500-2,000 words suit us best. There is no hurry about the article which you may do at your own convenience.

An early reply is requested.

Yours sincerely,

(A.S. Raman),
Asstt. Editor,
"March of India".

Dr. K.S. Krishnan,
Director, National Physical Laboratories,
Delhi University,
DELHI.

SDV.
