Dear Dr. Krishnan:

It was a great pleasure to meet you in that interesting conversation in Delhi last month at the National Physical Laboratory. I particularly appreciated the sincerity and candor with which you expressed your views.

Though my stay in Delhi was necessarily brief, it was marked by good fortune in finding so many persons interested in the International Centre who felt free to comment on its potential importance and present situation. I left Delhi with the impression that earlier difficulties and misunderstandings were moving toward resolution and renewed confidence in the direction of the Centre.

I have told my colleagues about the welcome prospects of your revisiting the United States next fall. We look forward to greeting you in this Foundation.

It will be a delight to see you again. In the meantime, my respects and cordial best wishes.

Sincerely yours,

Chadbourne Gilpatric
