Dear Sri Krishnan,

In re: the photograph of Mr's
letter that you mentioned, some thoughts struck me
while returning ^{home} after dropping you. When was
the Photograph taken, for what purpose, by
whom and how was it used then? and with
what result? Any findings arrived at then
would be helpful. It is somewhat unusual that
photographs should be taken of private corres-
pondence and where has this photograph all this
period - in whose custody? If, as you say, it
is addressed by one member to another and
conveys news, the addressee member is necessarily
unaware of the facts of the conveyed by the
communication. It's strange that one member
should be communicating to another member and
not to the President in these circumstances, for
the President contradicts. President and one
member ignorant, and a third member
conveying news to the latter! - This picture
makes the whole affair much more fishy than
what we discussed. As a lawyer, I would

Accept anything extra official, at all times, not strictly borne out by official documents, and men so in the circumstance mentioned.

You stated you mentioned the photograph to P, but you did not tell me what P. replied.

By the way, I forgot to mention to you that S.S.B. did not reply to me and all that you said last night was news to me & took me completely by surprise — Narada Panti line.

With regards, sincerely yours
A. C. S. Iyengar
