

WYNAD PRAKRITHI SAMRAKSHANA SAMITHI
SULTAN'S BATTERY-673 592
KERALA

President / Secretary

BEFORE THE PRIME MINISTER OF INDIA, NEW DELHI

We, the undersigned, submit the following memorandum before you for immediate attention and necessary action:

1. You may be aware that land slip is a regular phenomenon in the mountain regions of Kerala. These counter - blasts of nature are not unexpected. Experts on earth sciences were warning again and again against the unscrupulous tree felling on the mountain slopes in Western Ghats.
2. Wynad, the hill district of Kerala, is badly affected by indiscriminate tree felling. During the monsoon season of 1984, large scale land slides occurred at Mundakai and on the ghat section of Calicut - ~~Karakal~~ Kalpetta (District headquarters of Wynad) road, causing irreparable loss to human life and national wealth. Wynad district was cut off from the rest of the State for weeks and crores of rupees was drained away from the State exchequer in the name of relief and repairs. But the Government is intentionally ignoring the real cause for the havoos.
3. We have made several vain attempts to draw the attention of the State Government towards the activities which will cause severe ecological imbalance threatening the ghat road, the main artery connecting the district with rest of the State.
4. On the top of the 'Thamarassery Pass' on Western Ghats a large area is in the possession of certain private individuals. About 500 acres known as 'Meenakshi Plantations' is one among them. According to the best of our knowledge, this property originally belonged to Nilambur Kovilakom and might have vested in the Government under the Kerala Private Forest (Vesting and Assignment) Act 1971.

WYNAD PRAKRITHI SAMRAKSHANA SAMITHI

: 2 :

But with the help of unscrupulous Government Officers, the Forest was retained by private individuals and subsequently Cardamom and Coffee Registration Certificates were obtained, eventhough neither Cardamom nor Coffee was ~~cultivated~~ in the area.

5. Large tracts of evergreen forests in the area were denuded with the connivance of Government Officials. Remaining few acres of tree growth is very valuable for the safety of the ghat road and human life.

6. Tree felling in Meenakshi Estate was started on the strength of a certificate issued by the Senior - Liaison Officer, Coffee Board, Kalpetta. As per the information gathered by us the Senior Liaison Officer has issued permit on 23.4.84 for regulating shade for Coffee Plantations. In the piece of land from where the trees have been felled, there is no Coffee at all. Any one who visits the place can see a patch of abandoned Coffee Plantations by the side of the land from which trees were felled. In the area where there are coffee plants, not even a single tree can be seen. They were felled years ago. Hence the act of the Senior Liaison Officer is *prima facie* wrong and unjustifiable.

7. On the strength of the permit given by the Senior Liaison Officer, the party started cutting trees from the entire area. Timely intervention of the local people could stop the depredation of nature for the time being. We approached authorities at various levels to find a permanent solution to this issue. Several telegrams were send even to your office. But, so far, in our knowledge, ~~no~~ no effective step has been taken. Whichever departments contacted by us evaded the responsibility of taking positive steps to curb the felling.

8. An enquiry on the basis of the following points will reveal the illegality of the felling and bring to light the black hands behind the act.

WYNAD PRAKRITHI SAMRAKSHANA SAMITHI
SULTAN'S BATTERY-673 592
KERALA

President / Secretary

:3:

- (1) Ownership of the property.
- (2) Nature of the property in 1971.
- (3) Nature of plantations.
- (4) Details of registrations and certificates of Cardamom and Coffee and rules, norms, and principles behind the issue of these Certificates.
- (5) Compliance of rules under the Coffee Act and Cardamom Act.
- (6) Plan of property in which Coffee and Cardamom were cultivated.
- (7) Whether permission has been granted for cutting ~~xxx~~ trees.
- (8) Details of permission granted.
- (9) If permission has been granted, actual extent in which Coffee is planted and nature of tree growth in Coffee plantations.
- (10) Nature of the plantation from which trees have already been felled.

99 The question, we face is whether we should allow a few profitters and corrupt officials to create menace to the society and further erosion of public money.

10. In Wynad, Coffee Board Officials are issuing cutting permits intentionally ignoring the fact that the tree felling will adversely affect the existing Coffee Plantations and further extension of Coffee.

11. We hope that you will appreciate our anxiety on the denudation of 'Meenakshi Plantation' as the location is just above the landslip - prone ghat road. Even if the individuals claiming this area have titles over the land and right to cut the trees under the present laws, for the interest of Society laws should be made to prevent any further tree felling.

Hence, we humbly pray that immediate action may be taken to safeguard the interest of the people of Wynad by prohibiting tree felling in Meenakshi-Plantations and nearby places on the ghat road.

~~With xxxxxx expectations~~

WYNAD PRAKRITHI SAMRAKSHANA SAMITHI
