17-Rajpur Road,
Delhi.

June 16, 1955.

My dear Sir K.S.Krishnan,

I remember you once mentioned at Allahabad of Watmal's scholarships to deserving Indians for training in U.S.A.. Raj Kumar, whom you would perhaps recognise by face, joined the Govt. Central Textile Institute at Kanpur after passing his Intermediate Science Examination from K.P. Inter College Allahabad in II¹ Division. His subjects were English Mathematics, Physics and Chemistry. At the Textile Institute he completed his three years course and got diploma. He was sent to the Delhi Cloth Mills Delhi in June 1951 for a year's apprenticeship, after which he was employed by them in the Research branch and is working there since then. He is an ambitious fellow and is planning to go to U.S.A., where he has obtained admission, -on the strength of his good record, -in the school of Textiles of the University of North Carolina, Raleigh U.S.A. His parents are unable to bear the whole cost and he is in need of monetary help. I wonder if you could be of assistance in securing him one of the Watmal's scholarships. His course would be two years for B.S. degree and one more for

M.S. degree. I have asked him to take this letter personally to you.

With very kind regard,

Yours sincerely,

Chandra Kishore

(Chandra Kishore)

P.S. Harish wrote, you were at New York a few weeks ago.

On receipt of his letter I wished to ring you up, but was not sure of your presence at Delhi.

Sir K.S.Krishnan, D.Sc., F.R.S.,
3-Kushak Road, Delhi.
