Dr. N. Joshi
Centre for Ecological Sciences
Indian Institute of Science,
Bangalore.

Dear Dr. Joshi,

Let me first express my compliments to you for contributing an article in the book 'People of India: Bio-Cultural Dimensions' edited by Prof. S. B. Roy and Prof. Asok K. Ghosh. We have already sent a copy of this book and hope you might have received it by now.

If you have found some time to go into this book, especially its style and quality of production, we hopefully believe that you would have liked the work in all respects. However, your valuable comments will be highly appreciated for guiding us to bring more improvements in such works in future.

In case you think that this book can serve the purpose of a text book or of supplementary reading for students at any level, your suitable recommendations in that regard will be eagerly awaited. You may also like to consider recommending to your institution to have this book for use in their library.

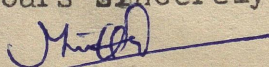

We shall be glad to send you one more copy of this book if you could yourself review it or get it reviewed in any of the dailies and/or any other academic Journal(s).

Dr. K.S. Singh Felicitation Committee have expressed their thanks for your kind cooperation in this work. Their letter dated 25.1.94 is enclosed.

Looking forward to hearing from you.

Thanking you,

Yours sincerely,

(M.C. MITTAL)
