Respected Sir,

We are a group of friends who love and adore Nature in all its manifold manifestations. We are trying to organize ourselves into a Club and our predominant interest is in Nature - Wildlife - Preservation of Forests - Ecology - Environmental Science etc...

We have just made a beginning and we have a long way to go.

We would surely appreciate if you could guide us, send us pamphlets, booklets etc and also provide us with the names and addresses of persons and organisations who could be contacted for the aforesaid purposes.

Kindly write to us in detail. We are eager to know if there are any organisations/Clubs with similar objectives at Bangalore and how they are functioning. Awaiting a detailed response and —

Thanking You

Truly Yours -

Bijin
