Went w/ Rudip to check locations for pools near Dhupgadh.

Saw two small waterfalls w/ pools and then went to fancy pool.

Had to trek down. Had a dip in the water ~15 ft. and clean. Coming up was tiring. Not much animal life except few stray misc./common birds.

A series of approximately 18 circular punch holes are arranged in a straight line along the top edge of the page. The paper is off-white and shows signs of wear, including creases and faint smudges. In the lower right quadrant, there is a small, dark, scribbled mark that appears to be a signature or initials, consisting of several overlapping lines.
