Dr. Krishnan -

I am delighted to enclose for you a copy of the Information Service of Moral Re-Armament containing Rajwahan Gandhi's account of the happenings behind the recent UN resolution on the Middle East, which I know will interest you.

Also enclosed is another issue of the Information Service with an account of young Gandhi's receiving the key to the City of Washington.

Two recent issues of the MRA Pictorial contain interesting additional references to him and to many of the significant moves of Moral Re-Armament throughout the world.

Pleasant journey!
