Prof. N.V. Joshi

Mr. Malcom Gray
President
International Cricket Council
Lords Cricket Ground
LONDON
NW8 8QN

Dear Sir

Greeting from Bangalore, India. This is to bring to your attention an article titled

"A new method for the computation of target scores in interrupted limited over cricket matches"

that has been published in the September 10th issue of the journal *Current Science* by Mr. V. Jayadevan an Engineer from India. A copy of the issue is enclosed along with, to indicate the kinds of scientific and technical articles that are published in this peer-reviewed journal.

The article has been receiving an overwhelming response from our readers. In the article, there is a very detailed comparison of both the theoretical as well as practical aspects of the proposed method and the presently employed D/L method.

It will be good for the game, if the International cricket council gives a serious consideration on this method.

Thanking you and With Best Regards,

N.V. Joshi 5 Dec 2002

N. V. Joshi
