Dear Shri Pandurang Hegde,

This is to acknowledge receipt of your letter dated 14th November 1984, requesting for a copy of the Study report "Rainfall Probability Estimates as an aid to Dry Land Farming" brought out by this Directorate. From your letter, it would appear that you are interested in data materials relating to the ecological consequences as a result of denudation of forests in Uttara Kannada. The study report referred above does not contain materials relevant for your field of interest in organising the Appiko Movement about which you have referred to in your letter. Hence, it is considered that this publication may not be of any use to meet your requirements. However, I may mention that a study of rainfall trends in Karwar, Sirsi of Uttara Kannada is under progress and I shall have a copy of this study report forwarded to you soon after its completion.

With best wishes,

Yours sincerely,

A handwritten signature in blue ink, appearing to be "R.G.Bhat", written over a horizontal line.

Shri Pandurang Hegde,
